## Introduction

---

Creative Software Engineer & UI/UX Designer with a passion for building intuitive, user-focused digital experiences. Skilled at combining clean code with impactful design to deliver solutions that are both functional and visually engaging.

## Objective

---

- Leverage expertise in software engineering to build scalable, efficient, and reliable applications.
- Apply UI/UX design principles to create intuitive, user-friendly, and visually engaging digital products.
- Collaborate with cross-functional teams to bridge the gap between technical development and user-centered design.
- Continuously adapt and innovate by integrating emerging technologies with modern design trends to enhance user experience.

## Education

---

**I.K. Gujral Punjab Technical University, Jalandhar**, Bachelor of Technology in Computer Science and Design

- GPA: 8.67/10.0

## Experience

---

**UI/UX Designer Intern**, Eoxs – Remote

- Designed intuitive, user-centered web and mobile interfaces, improving usability by 20%.
- Conducted research, competitor analysis, and usability testing to refine design decisions.
- Created wireframes, prototypes, and high-fidelity mockups using Figma and Adobe XD.
- Contributed to product brainstorming sessions and presented design solutions to stakeholders.

**Software Engineer Intern**, Eoxcy IT – Jaipur, India

- Assisted in developing web applications with clean, efficient, and maintainable code.
- Collaborated with senior engineers to design scalable backend solutions.
- Optimized and debugged existing code, improving performance and reliability by 15%.
- Worked with SQL/NoSQL databases for structured data management.
- Participated in Agile sprints with standups, code reviews, and collaborative problem-solving.

## Projects

---

**WanderLust - Travel Website**

- Built MERN-based travel platform for hotel listings and reviews with full CRUD functionality.
- Implemented real-time search filtering by destination type, improving search relevance by 20%.

**NITCOM 2024 - International Conference Website**

- Developed MERN-based conference website with real-time updates and interactive explore section.
- Increased registrations by 50% and participation by 35% through improved UX.

**Movie-Tv-Shows Platform**

- Built MERN-based platform with real-time search and personalized recommendations.
- Boosted user engagement by 40% and content consumption by 25%.

## Skills

---

**Languages:** C++, C, Java, C#, SQL, JavaScript, Objective-C, SwiftUI

**Web Technologies:** HTML, CSS, Bootstrap, MySQL, React, Node.js, Express.js, MongoDB, REST API

**CS Fundamentals:** Data Structures & Algorithms, DBMS, OOP, OS

**Development Tools:** Git, GitHub, VS Code, Hoppscotch, Xcode, Android Studio

## Achievements and Certificates

---

- Completed Decode DSA with C++ (PW Skills)
- Solved 1500+ DSA problems across coding platforms.
- Achieved LeetCode rating: Max 1762.
- Achieved Codeforces rating: Max 1413 (Specialist)
- Achieved CodeChef rating: Max 1616.
